Reliable and Secure Communications

AeonixPLUS is here! As a result of the partnership of two telephony industry leaders; Blue Chip and Tadiran Telecommunications - we are now able to deliver a reliable and expandable Unified Communications & Collaboration (UC&C) experience. We’ve developed an UC&C platform that is more easily deployable, has enhanced security and reliability, and avoids the voice quality issues found on many VoIP platforms. AeonixPLUS is the perfect solution for not only today, but also tomorrow.

The AeonixPLUS solution provides more choices for your installation preference. Whether your company would prefer to have the system on premise, in public or private cloud or any other variation, we are able to deploy it to fit your needs.

Blue Chip works closely with a few trusted, reliable voice and data providers to offer you the best quality of service at the right price. Our experienced team can review your data needs and optimize the best plan for you – all while improving your network performance and voice quality.

Today’s rapidly changing technological and business environment it complex. Blue Chip has the trusted technical expertise and solution minded sales team to help you make easy and effective choices. All of this, while improving service and delivering a better ROI.
